# 4 Channel Constant Voltage Power Repeater

#### Model No.: EV4-X

4 Channel/PWM signal input/Constant voltage output/3KV optoelectronic isolation

CE RoHS emc LVD

#### Features

- 12-24V constant voltage power repeater.
- 4 channel, 8A per channel.
- To receive PWM signal control.
- Power repeater in series or in parallel to expand output unlimitedly.
- Apply to single color, dual color, RGB or RGBW constant voltage LED strip or module.

### Technical Parameters

Input voltage         12-24VDC           Input current         32.5A           Input signal         PWW           Output voltage         4 x (12.24)VDC           Output voltage         4 x (19.4)VDC           Output power         4 x (96-192)W           Output type         Constraint voltage	Input and Output

### Safety & Warnings

- 1. The product shall be installed and serviced by a qualified person.
- 2. This product is non-waterproof. Please avoid the sun and rain.
- 3. Good heat dissipation will prolong the working life of the controller,Please ensure good ventilation.
- 4. Please check if the output voltage of any power supplies used comply with the working voltage of the product.
- 5. Ensure all wire connections and polarities are correct and secure before applying power to avoid any damages to the LED lights.
- 6. If a fault occurs please return the product to your supplier. Do not attempt to fix this product by yourself.
