ZigBee & RF AC Triac Dimmer

Model No.: S1-B(WZ)

Tuya APP cloud control/RF dimming/Push Dim/Leading edge or trailing edge/Wall junction box mounting

Features

- ZigBee + RF + Push AC phase-cut dimmer, 1 channel output.
- To dim and switch single color dimmable LED lamps, traditional incandescent and halogen lights.
- Tuya APP cloud control, support on/off, brightness adjust, delay turn on/off light, timer run, scene and music play function.
- 256 levels 0-100% dimming smoothly without any flash.
- Leading edge dimming or trailing edge dimming set by dip switch.
- Min brightness can be set by key.
- Compatibility with RF 2.4G single zone or multiple zone dimming remote control.
- Each S1-B(WZ) controller can also work as ZigBee-RF converter, then use Tuya APP to control one or more RF dimming LED controller or driver synchronously.
- Connect with external push switch to achieve on/off and 0-100% dimming function.
- Easy to be placed in standard wall junction box behind a push switch.
- Over-heat / Over-load protection, recover automatically.

Technical Parameters

Input voltage AC100-240V Ir	
ACTO0-240V	Inp
Output voltage AC100-240V	RF
Output current Max 1.5A	D
Output power 1.50-360W	Di

Safety	and	EMC

Mechanical Structures and Installations

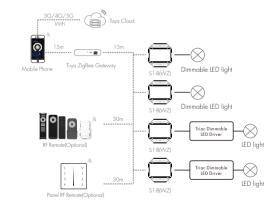

26.00 mm

-52.00 mm-

600000

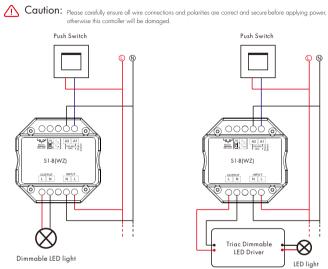

- Wired connection
- ----- Wireless connection

Note:

 The above distance is measured in spacious (no obstacle) environment, Please refer to the actual test distance before installation.

2. Users must use the Tuya ZigBee gateway to realize remote control and voice control.

Wiring diagram

Connect with dimmable LED light

Connect with Triac dimmable LED driver

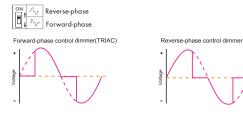

Note: When calculating the maximum number of load lamps or drivers, the input power or input current parameters of a single lamp or driver must be used, the output power parameters can not be used. In addition, the maximum surge current of the dimmer is 65A, the sum of surge current of multiple dimmable ED drivers should not exceed 2 times, otherwise, the product will be overloaded and damaged.

Compatible Load Types

Load Type	Maximum Load	Remarks
Dimmable LED lamps	200VV @ 220V 100VV @ 110V	Due to variety of LED lamp designs, maximum number of LED lamps is further dependent on power factor result when connected to dimmer.
Triac Dimmable LED drivers	200VV @ 220V 100VV @ 110V	Maximum permitted number of drivers is 200W drivided by driver nameplate power rating, and make sure the surge current is no more than 2 times 65A.
Incandescent lighting, HV Halogen lamps	400VV @ 220V 200VV @ 110V	

Leading edge or trailing edge dimming setting

Select leading edge(forward-phase) dimmer or trailing edge(reverse-phase) dimmer according to dimmable LED light or driver.

Caution: before power on, you must confirm the selection of dip switch.

Min brightness setting

Long press Min set key for 10s, the light blink 2 times, ready for min brightness set, then short press Min set key 1-6 times, to get 6 min brightness: 5%, 10%, 15%, 20%, 25% or 30%, the light will output the current min brightness immediately, Wait 8s, guit min brightness set automatically, the light will return output 100% brightness.

Tuya APP network connection and operation

Press and hold Match/Set key for 2s, reset ZigBee network.

Press and hold Match/Set key for 5s, or push twice Match/Set key fastly, Clear previous network connection, enter config mode. the blue LED indicator fast flash.

If Tuva APP network connection succeed. the blue LED indicator will stop flash, and in Tuya APP, you can find SKYDANCE-ZB-DIM device.

Tuya APP interface operation: Touch brightness slide to adjust brightness.

S1-B(WZ) match RF remote control (Optional)

End user can choose the suitable match/delete ways. Two options are offered for selection:

Use the S1-B(WZ)'s Match key	Use Power Restart
Match: Short press match key of S1-B(WZ), immediately press on/off key (single zone remote) or zone key (multiple zone remote) on the remote.	Match: Switch off the power of S1-B(WZ), then switch on power again, immediately short press on/off key (single zone remote) or zone key (multiple zone remote) 3 times on the remote. The light blinks 3 times means match is successful.
Delete: Press and hold match key of S1-B(WZ) for 1.5s to delete all match, The light blinks 5 times means all matched remotes were deleted.	Delete: Switch off the power of S1-B(VVZ), then switch on power again, immediately, short press on /off key (single zone remote) or zone key (multiple zone remote) 5 times on the remote. The light blinks 5 times means all matched remotes were deleted.

S1-B(WZ) work as ZigBee-RF converter to match other RF dimming LED controller or driver

Use Power Restart

Switch off the power of the controller, then switch on power again,

Switch off the power of the controller, then switch on power again,

The light blinks 5 times means all matched remotes were deleted.

immediately short press on/off key 5 times on the Tuya APP.

End user can choose the suitable match/delete ways. Two options are offered for selection:

Use the controller's Match key

Match: Short press match key of the controller, immediately press on/off key on the Tuya APP. The LED indicator fast flash a few times means match is successful

immediately short press on/off key 3 times on the Tuya APP. The light blinks 3 times means match is successful.

Delete:

Match:

Delete: Press and hold match key of the controller for 5s The LED indicator fast flash a few times means all matched remotes were deleted.

AC Push Dim Function (Optional)

• Short press:

Turn on or off light.

• Long press (1-6s): Press and hold to step-less dimming,

With every other long press, the light level goes to the opposite direction.

• Dimming memory: Light returns to the previous dimming level when switched off and on again, even at power failure.

User Manual Ver 1.0.1
